

# DARDEL GENEALOGY

## FAMILY TREES

Our genealogy database contains 5100 people, of which 4300 are descendants of Jehan Dardel with their spouses and sometimes the parents of these. The other 800 persons are ascendants of allied families (back to Hugues Capet!)

As we were not able to accommodate all on a single family tree, we are showing six separate trees:

1. Descendants of Jehan Dardel (first 7 Generations out of 18)
2. All descendants of his son Huguenin
3. Descendants of his son Blaise (without the branch of Georges-Alexandre: see Nicolet)
4. Descendants of his son Nicolet (without the branch of Georges-Alexandre to save space)
5. Descendants of Georges-Alexandre (all)
6. *Ascendants* of Sophie von Lewenhaupt, Georges-Alexandre's wife
7. In addition, an incomplete tree of the Dardels without a link to Jehan, in the Geneva area

## COATS OF ARMS

We are also presenting a table showing 290 coats of arms of the Dardels (they have 13 different family crests!) and of allied families. The table gives the place of origin of the family as well as the heraldic description of the coat of arms.

In Switzerland, many families have a coat of arms, not only noble ones, whereas in France, Sweden and Germany, their use is usually reserved to nobility.

Many families (see the Dardels) have several coats of arms, sometimes very different. We have chosen the most probable one, but we may have been mistaken. If such is the case, please advise us.

## UPDATES

You can help us maintain the database up to date by informing us about mistakes, but first of all by mentioning new births, marriages and deaths. An update form is available on our genealogy web site at <http://genealogie.dardel.info/> or as a sheet of paper in this room.
